My portfolio

Software Engineer specializing in Frontend and Full-Stack web development, with hands-on experience building production-ready applications using React, TypeScript, and Java. Proven track record in Agile teams implementing Clean Architecture, Supabase integrations, and scalable UI components. Eager to contribute to high-impact web products and modern software systems in an entry-level Software Engineer role.

PROFESSIONAL EXPERIENCE

540 Pamplona, Spain | 06/2025 – 11/2025

Full-Stack Developer Intern

- Architected and developed modular frontend components using React and TypeScript, ensuring high code reusability, strict type safety, and responsive design across desktop and mobile devices.
- Integrated backend services and persistence layers using Supabase, configuring authentication workflows and real-time database subscriptions.
- Applied Clean Architecture patterns to decouple business logic from the view layer, streamlining unit maintenance and sprint delivery.
- Collaborated actively within an Agile/Scrum environment, taking ownership of sprint tickets, Git version control, and code reviews.

PROJECTS

Telerehabilitation Therapy Tracking Platform (Bachelor's Thesis)

Universidad Pública de Navarra (UPNA)

- Engineered a specialized web frontend to track patient adherence and recovery metrics in telerehabilitation treatments.
- Implemented Clean Architecture to isolate domain logic from user interface frameworks, improving testability and code longevity.
- Built dynamic and responsive data visualization views using modern component design and strict state management.

SKILLS

- **Programming Languages:** TypeScript, JavaScript, Java, Python, SQL, C, PHP
- **Frontend:** React, HTML5, CSS3, Responsive Design
- **Backend & Databases:** PostgreSQL, MySQL, Supabase, RESTful APIs
- **DevOps, Tools & Systems:** Git, GitHub, Docker, Linux, Postman
- **Architectures & Practices:** Clean Architecture, Agile / Scrum, Object-Oriented Programming (OOP)

EDUCATION

B.Sc. in Computer Science (Specialization in Software Engineering) Pamplona, Spain | 09/2021 – 06/2026

Universidad Pública de Navarra (UPNA)

Relevant Coursework: Software Architecture, Clean Architecture, Quality Assurance (QA), Relational Databases (SQL), Agile / Scrum, Operating Systems.

Erasmus+ Academic Mobility in Digital Media Brasov, Romania | 02/2026 – 06/2026

Transilvania University of Brașov (UNITBV)

Focused on Advanced Web UI Design, visual communications, and international team collaboration in English.
